---

## The new standard.

DM32 is the world's first pressure gauge with built-in touchscreen, ergonomic design, and capable of getting updates from the Internet. This gauge also comes with new cutting edge pressure sensors that last 5 years without recalibration.

## Free WiFi apps (exclusive to DM32 WiFi)

Seal duct leaks in the attic and see live updates of leakage area on your smartphone or tablet. Available for iOS and Android devices.

## Gauge Options

### DM-2

The classic time-proven gauge with features that are still 15 years ahead of its competitors. DM-2 is a perfect budget option.

### DM32

With its touchscreen control and 5 year calibration, DM32 is the new benchmark of the industry. Free PC Apps for more testing flexibility.

### DM32 WiFi

Go wireless with this top of the line gauge. Same amazing features as DM32 plus WiFi and free mobile apps for even more testing flexibility.
